New Zealand/Samoa Mission Trip 2009

This young man was born blind in one eye, after being prayed for he began to see out of it!! Praise the Lord!!!

This young lady was sent home from the hospital to die, we had the privilege to pray for her and believe that we will hear a wonderful testimony from her soon.

Below is a picture taken during one of the church services.

We made a deep connection with the people of New Zealand and look forward to returning next year.

We had many receive the Lord as their Savior and many filled with the Holy Spirit.

One family had a son and a daughter who gave their hearts to the Lord. Their father was from India and had

raised them in the Sikh religion. They had many questions that they asked the team and before we left gave their hearts to the Lord. They are standing strong and doing well PTL!

Below is the entire team and this boys family that we prayed for. One of the girls was a foster child who had a hole in her heart that the Lord healed that day as well!

We were blessed to have seen so many miracles taken place while we were there. Our God is a wonder working God!

We also did hospital visitations and prayed for this pastors wife. Who is

standing against cancer. We know that our God is bigger than cancer and expect to hear a good report the next time we go to New Zealand.

Inside this issue:

- Mission Trip Continued 2
- Pictures 3
- Schedule 4

SAMOA

We did many home visitations and below is a family that we prayed for and the entire family was filled with the Holy Spirit all at once, 16 total.

Shown are pictures of some of the churches. They do not have walls but are open to allow the breeze to flow through. They were starting into summer.

Below we prayed for this man who had been bed-ridden for over a year. Victor gave him a word from the Lord and he is now up and walking!!!

Above is the first church that we visited, it is nestled up in the side of the mountain.

Across the way was another man who had been bed-ridden for a year we prayed for him as well and he is walking now too!!!

We were able to take with us a portable laboratory in Savaii so that they could take it and get blood test results on the spot in the field which could be life saving information.

Here are the pictures of Victor explaining how it works and showing them all the equipment.

We first had to meet with the general manager of the National Health Services in Apia, Dr. Stanley Dean Pictured above next to Victor.

Above is Pastor Esera, next to Victor, behind from left to right; our driver Mac, Filipino our interpreter, Dave, Tish and the two gentlemen from the lab at the hospital.

Above we are meeting with and praying for the Prime Minister of Samoa "Tuilaepa Sailele Malielegoai"

To the right is a Village Chief that allowed us to take his picture. The tattooing is done only on the Village Chiefs, it can be a deadly process if not done correctly.
