## The First of The Hurricanes to Hit Cuba “Gustav”

This is a Letter we received from Rev. Manuel Delgado

Vice President of FIBAC (Fraternity of Baptist Churches of Cuba)

### Inside this issue:

Gustav Cont.	2
Vision	2
Schedule	3

Dear brothers and sisters,  
Last Thursday one group of leaders of the FIBAC visited the province of Pinar del Rio in order to give a small help to people more affected by the hurricane Gustav and to evaluate the existent situation after the step of the hurricane Gustav, we visited the town Paso Real de San Diego and others, for that place it passed the eye of the hurricane Gustav and in an existent meteorological station they registered winds of 340 km/hora (218 millas/hora) before it broke the equipment of measuring the winds.

The destruction of houses is really terrible, some houses have fallen, a great quantity has lost the roofs total or partially, in the mentioned area there is not electricity from Saturday 30, people have lost their clothes, televisions, radios and many other equipments, we still saw

mattresses that are being dried under the sun.

Thursday in our visit and in a limited way we gave as donations of our own Churches: clothes, candles, matches, cookies, fresh water, burner to cook with diesel, medications for the fever and some things more than they can cover some urgent necessities.

We saw as the families were receiving materials from the government in order to repair their houses partially, mainly the roofs, but with the same previous constructive system, for this reason in the future they may pass for the same problem with the visit of a new hurricane.

As the province of Pinar del Rio has been touch by 40% of the hurricanes that arrived to Cuba, we understand that is good to help to some of the families to build (as part of their houses) a bathroom and a contiguous room resistant

to the hurricanes so that it can serve them as refuge during the visit of a new hurricane, the cost of those two rooms is 2000 USD (approximately).

### Below is the same letter in Spanish.

Estimados hermanos y hermanas,  
El jueves 4 un grupo de hermanos de la directiva de la FIBAC visitamos la provincia de Pinar del Río a fin de llevar una pequeña ayuda a las personas más afectadas por el huracán Gustav y evaluar la situación existente después del paso del huracán Gustav, estuvimos en el pueblo de Paso Real de San Diego y en otros cercanos, por ese lugar pasó el ojo del huracán y en una estación meteorológica existente se registraron vientos de 340 km/hora (218 millas/hora) antes de que se rompiera el equipo de medir los vientos.

Realmente la destrucción de casas es terrible, algunas han caído, una gran cantidad han perdido los techos total o parcialmente, en la zona mencionada no hay electricidad desde el sábado 30, las personas han perdido sus ropas, televisores, radios y muchos otros equipos, aún vimos colchones que están siendo secados al sol.

El jueves en nuestra visita y de forma limitada llevamos donaciones de nuestras propias Iglesias ropas, velas, fósforos, galletas, agua fresca, fogón para cocinar con diesel, medicamentos para la fiebre y algunas cosas más que pueden cubrir algunas necesidades apremiantes.

Vimos como las familias comenzaron a recibir materiales para reparar sus casas, principalmente los techos, pero con el mismo sistema constructivo anterior.

Como la provincia de Pinar del Río es tocada por el 40 % de los huracanes que llegan a Cuba, creemos que algo bueno será poder ayudar a las familias que sea posible a construir como parte de sus casas un baño y un cuarto contiguos resistentes a los huracanes, a fin de que les pueda servir de refugio durante el paso de otro huracán en el futuro, el costo de esas dos habitaciones es de 2000 USD aproximadamente.

### Vision Given to Chris Upham

### “The Transformation of the Born Again Spirit”

Chris came and shared this vision with Rev. Burgos; he was so blessed that he wanted to share it with all of you.

The vision that the Lord gave me was; He showed me a pillar of fire that came down from Heaven, the pillar of fire was bigger than anything I ever saw; it was massive and it came down to this land that looked and resembled like a city. The city went as far as the eye could see and the pillar of fire came down, and out of the bottom of the pillar of fire came out this liquid fire and it completely destroyed everything in that city, all around the world and at that same time as it was destroying it was renewing everything and all the fire standing in front of the pillar of fire was a man, he was a

Here are Pictures of some of the damage done by Gustov.

regular man but there was a book floating in front of him and the book started opening up and started flipping from Genesis all the way to Revelations and every page that flipped a light glowed from those pages it got brighter as it got closer to Revelations. While it was getting closer to Revelations the man started transforming into this man of diamonds, his hair became like liquid diamonds and like silver, his eyes became like diamonds and silver, his skin became like porcelain and like almost a silver and goldish color and he started changing. He was a man but he was made out of rubies and diamonds and all kinds of like treasures and he stood in front of that pillar of fire and when the book flipped all the way to the end of Revelations it shut and then a light emulated from the man; a light that was beyond intense, that basically shined out from him out through the whole land and the book stayed in front of him. Then I opened my eyes and the Lord told me; He said study the fire, study My fire. He said that we stepped into the third and final phases.
